

Dance across Six Continents

Kevin Croston

Dance across Six Continents is a PowerPoint presentation that describes the common characteristics that appear in the dances of a continent. The six continents that we are looking at are North America, South America, Asia, Australia, Africa, and Europe. Because there are no people endemic to Antarctica, it was discarded from the presentation. This presentation includes fourteen videos in all. The samba, salsa, and tango from South America. Other named dances include Swing, the Australian aboriginal fire dance, Asian noh and kabuki theater, the Appalachian square dance, and the South African gum boot dance.
