FALL 2016 DEGREE-SEEKING STUDENT ENROLLMENT GEOGRAPHIC DISTRIBUTION BY TERRITORY

Total Headcount Enrollment	1,665
Degree-Seeking Students	(1,612)
Non-Degree-Seeking Students	(53)

Degree-Seeking Students by Territory Designation at Entry:

In-Territory	Out-of-Territory	F-1 International	Total
1,202 (74.5%)	288 (17.9%)	122 (7.6%)	1,612 (100%)

NOTE: The category "F-1 International" does not include all students who come to the College from other countries or with substantial international experience. For example, "permanent residents" who may be asylees or refugees are counted as "In-Territory" or "Out-of-Territory" rather than "F- 1 International" depending on residence at the time of application. These students are eligible for federal financial aid that F-1 International students cannot legally receive. In Fall 2016, fifty-nine (59) Berea College students were designated as "permanent residents." Also, there are five F-1 International students enrolled as exchange students (non-degree-seeking) this fall.

TOTAL STATES, TERRITORIES, AND COUNTRIES REPRESENTED FALL 2016 DEGREE-SEEKING ENROLLMENT

- 40 different states
- Washington D.C.
- 1 U.S. Territory (American Samoa)
- Armed Forces (Europe)
- 70 countries other than the U.S.

DEFINITIONS OF TERRITORY CATEGORIES

Berea College students are characterized at term of entry by one of three "geographical" categories. They are:

- *In-Territory*: Students who come from much of the Appalachian region and all of Kentucky within the white area in the map below. In-Territory also includes permanent residents (a non-citizen who has formally established residency in the U.S.) and refugees who reside in the territory.
- *Out-of-Territory*: Students who come from outside the In-Territory area, including U.S. Citizens living in foreign countries. Out-of-Territory also includes permanent residents (a non-citizen who has formally established residency in the U.S.) and refugees who reside out of the territory.
- *F-1 International*: Students who are not U.S. Citizens, permanent residents, or refugees; these are students who are attending the College under an F-1 visa issued by the U.S. Department of State.

NOTE: The *Appalachian Regional Commission (ARC) Area*, as defined in ARC's authorizing legislation, is a 205,000-square-mile region that follows the spine of the Appalachian Mountains from southern New York to northern Mississippi. It includes all of West Virginia and parts of 12 other states: Alabama, Georgia, Kentucky, Maryland, Mississippi, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, and Virginia. Forty-two percent of the Region's population is rural, compared with 20 percent of the national population. The region includes 420 counties in 13 states and is home to more than 25 million people.

APPALACHIAN REGIONAL COMMISSION (ARC)

The Appalachian Regional Commission (ARC) is a regional economic development agency that represents a partnership of federal, state, and local government. Established by an act of Congress in 1965, ARC is composed of the governors of the 13 Appalachian states and a federal co-chair, who is appointed by the president. Local participation is provided through multi-county local development districts.

The Appalachian Region, as defined in ARC's authorizing legislation, is a 205,000-square-mile region that follows the spine of the Appalachian Mountains from southern New York to northern Mississippi. It includes all of West Virginia and parts of 12 other states: Alabama, Georgia, Kentucky, Maryland, Mississippi, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, and Virginia. Forty-two percent of the Region's population is rural, compared with 20 percent of the national population.

The Appalachian Regional Commission (ARC) uses an index-based county economic classification system to identify and monitor the economic status of Appalachian counties. The system involves the creation of a national index of county economic status through a comparison of each county's averages for three economic indicators—three-year average unemployment rate, per capita market income, and poverty rate—with national averages. The resulting values are summed and averaged to create a composite index value for each county. Each county in the nation is then ranked, based on its composite index value, with higher values indicating higher levels of distress.

County Economic Levels

Each Appalachian county is classified into one of five economic status designations, based on its position in the national ranking.

Distressed: Distressed counties are the most economically depressed counties. They rank in the worst 10 percent of the nation's counties.

At-Risk: At-Risk counties are those at risk of becoming economically distressed. They rank between the worst 10 percent and 25 percent of the nation's counties.

Transitional: Transitional counties are those transitioning between strong and weak economies. They make up the largest economic status designation. Transitional counties rank between the worst 25 percent and the best 25 percent of the nation's counties.

Competitive: Competitive counties are those that are able to compete in the national economy but are not in the highest 10 percent of the nation's counties. Counties ranking between the best 10 percent and 25 percent of the nation's counties are classified competitive.

Attainment: Attainment counties are the economically strongest counties. Counties ranking in the best 10 percent of the nation's counties are classified attainment.

For more information, please visit the Appalachian Regional Commission's website at: <https://www.arc.gov/>.

In Fall 2016, 1612 degree-seeking students enrolled at Berea College (including 418 First-Year and 48 Transfer Students). Of the 1612, 1333 are from the nine states in which the In-Territory counties are located.

For the 1333, the table below presents the number and percentage of students by the ARC County Economic Designation. Not included in the table are six students enrolled in Transitional counties outside the In-Territory states (one in New York and five in Pennsylvania).

The table below also breaks out first-year and transfer students by ARC designations.
