

# Graduate Employment and Education

Based on LinkedIn Berea College Alumni Professional Group Members  
(Self-Reported Data Collected August 2016 - July 2017)

## 1,239 Graduates Organized by Graduation Year Time Period

NOTE: Definitions of all categories can be found [here](#).

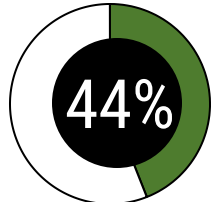

NOTE: For each graduation year time period, the pattern for employer categories is similar with at least 50% of graduates employed by a for-profit organization. Also, the pattern for the highest degree earned by graduates is similar for each time period with over 30% of all graduates receiving a Master's degree.

The statistics below are based on information reported to the National Student Clearinghouse by post-secondary institutions (as of June 2017).

### 862 Recent Graduates (Academic Years 2010-11, 2011-12, and 2012-13)

Attended a post-secondary institution after Berea graduation (N = 377).

Of all 862 graduates, 158 have received a Master's degree or higher.
