

2020-2021 MUSIC MINOR

(Minimum of six course credits)

The Music Department seeks to encourage life-long participation and enjoyment of the arts. Students seeking a Music minor would acquire a basic knowledge of the rudiments of music theory and music history, and develop skills on a music instrument or instruments through individual lessons and participation in ensembles. Students interested in this minor can supplement their academic majors, such as business, education, psychology, and theatre, for entrance in fields such as music business, elementary education, music therapy, and music theatre.
