

2022-2023 ENVIRONMENTAL SCIENCE MINOR

A minor in Environmental Science consists of six (6) course credits. No more than three (3) course credits can count both toward the ENV minor and a student's major OR another minor.

Required Core courses

Three (3) courses required

GEO 101 Intro to Geology

BIO 110 Modern Biology **OR**

CHM 131 Accelerated General Chemistry

BIO/SENS 310 Ecology

Required Distribution courses

Three (3) additional courses chosen from the following list.

ANR 130 Plant Science

ANR 240 Soil Science

ANR 342 Soil and Water Conservation

BIO 222 Microbiology

BIO 344 Dendrology and Forest Ecology

CHM 221 Organic Chemistry I

CHM 311 Analytical Chemistry

GEO 201 Mineralogy

GEO/SENS 320 Intro to GIS

Other GEO courses as offered

Admission to the Minor – Completion of GEO 101 with a C or better.

Course Sequencing Considerations – It is recommended that students take GEO 101 and either BIO 110 or CHM 131 by the end of their sophomore year in order to complete the requirements of the minor within four years.

Proficiency Requirements for Retention in and Completion of the Minor – Students must complete the minor with a C average or better for the six courses in the minor.

Other Considerations or Recommendations – Alternative courses in ANR, BIO, CHM, GEO and PHY may be applied towards the Distribution requirement with permission of the Environmental Science advisors.
